The Kiowa Indians stopped the mail party at Nocknees creek, and kept them half a day. Their object, or Regular—on the most liberal terms. they said, was to make peace, and that they could wipe out the party, but did not feel so disposed. The Indians are almost in a starving condition. REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING DECEMBER 12TH, 1860.

The dullness noted in the market for some weeks past continues in all branches of business, and country produce is exceedingly difficult of sale even at low prices; there is, however, but little arriving at present. The pressure in money matters continues, and it is a difficult matter to negotiate paper of any kind. Business matters look gloomy, as buyers of produce are unable to operate to any extent in table below. In Spirits Turpentine a decline has been submitted to on a few lots, and a dullness pervades the mar-Dec. 12 | ket. In Rosin nothing of consequence has been done for some weeks, and it is almost impossible to give a correct quotation. Tar remains unchanged, but is not so firm. ther articles are without material change in price, and only a small business doing ;-in fact we may quote all produce as unusually dull of sale even at the low figures now prevailing. We refer to the following review as comprising the week's transactions :

TURPENTINE-The inactivity reported in the market for this article in our review of Wednesday last, has continued throughout the week just ended, though no change took place in prices until Monday; on that day, however, there per 280 lbs. - being 10 a 15 cents lower than last quoted the market closing quiet at above figures. The receipts for the week just ended have been small, most makers keeping it back in preference to sending it to market at present low prices. The sales foot up 2,914 bbls., as follows: Bbls. Yel. Spirits Turpentine.—During the week just ended the market has been in rather an unsettled condition, and prices market has been in rather an unsettled condition, and prices ature or dampness—selling at BALDWIN'S Dec. 8.—d&w Furnishing Store, 38 Market st. for N. Tuesday .... 100 " " 29 " " " " Rosin-There is no demand for this article, and consequently we have no sales to report in either grade. In the absence of sales the stock on market is accumulating, and it is impossible to sell at present. The last sales of Common were at 80 cents for tale bbl., and 85 cents per 310 lbs. We are unable to give a correct quotation for either grade, and figures in table must be looked upon as merely nominal. TAR-There is no change to report on last Wednesday's quotation, though the market rules quiet. The receipts for the week comprise 1,572 bbls., all of which has changed hands at \$1 50 per bbl.

a moderate demand, and parcels would self readily at 5 to

6½ cents per lb., as in quality, delivered here.

BARRELS.—There is nothing new to report in the market in regard to empty Spirits Turpentine barrels. The stock in first hands is very heavy (larger than it has ever been) and there is no demand, it being impossible to sell at anything like a fair price. No sales have taken place that we are aware of, and quotations in table must be looked upon as marrely nominal.

PILLOW CASES, FEATHERS, CURLED BATK, and UPHOLSTERERS' MATERIALS, all of which he will sell on as liberal terms as can be found elsewhere. Upholstering, in all its branches, strictly attended to.

SASH, BLINDS AND DOORS furnished to order, en short notice. Orders left at the Furniture Store of O. L. FILLYAW will receive prompt attention.

Sept. 15, 1860.—9&4-3m.

COFFEE .- Since our last we notice the arrival of a cargo of 3000 bags direct from Rio de Janerro, which has gone into store, and is selling in lots at prices ranging from 13 to 14½ cents per 1b., as in quantity and quality, cash. The stock of other descriptions is light; there is, however, only a small business doing at quotations in table.

Correct Formula Rio de Janerro, which has gone into store, and is selling in lots at prices ranging from 13 to name and style of Bizzell & Co., is this day dissolved by mutual consent. The business will be settled by F. M. Bizzell, and all persons indebted will please come forward and settle immediately. COTTON—In the early part of the week just ended there was some enquiry from buyers, and a few parcels changed hands, though at a reduced price. The sales for the first

three days were 337 bales, at 81 cents for low middling, 82 cents for middling, 9 cents for strict middling, and 94 cents for good middling. Since Friday no transactions have been reported, buyers demanding a still further decline. The receipts per railroad have been quite small, but owing to the meagre transactions there is a moderate stock in receivers' hands. P. S.—The telegraphic advices, received this morning by the *Europa* from Liverpool, report a slight advance in prices, together with a reduced stock, which may have the tendency to somewhat strengthen our market. CORN MEAL-No receipts from the country, and the sales have been in the retail way from the granaries at 85 cents

DRIED FRUIT-No sales for some weeks past, and we quote nominally at 31 cents for apples, and 81 a 10 cents per lb. for peeled peaches. FEATHERS-Are brought in sparingly, and very few on market. In demand at 50 to 55 cents per lb. FISH-No receipts or sales of Mullets that we are aware of. The market is moderately supplied, and demand light.

See table for store prices. FLOUR-We have no change of consequence to report in the market for State brands since our review of Wednesday last. The demand has been confined to small lots for retail ing purposes, and although the stock in dealers' hands light, it is fully adequate for present wants. We quote small sales at \$7 50 per bbl. for superfine; this figure, however, could scarcely be obtained for a lot of any size, unless

GUANO-Nothing of consequence doing, and we continue former quotations: No. 1 Peruvian \$60; Reese's Manipulated \$52; American \$40; and Sombrero \$35 per ton of 2,000 lbs. We quote Superphosphate of Lime at \$50, and Land Piaster at \$10 per ton. GRAIN-In the CORN market we have no material change to notice since our last review The stock in dealers hands continues quite large, and the demand is light, and it is impossible to sell unless on time. The receipts for the week

comprise 4200 bushels (new) from Pasquotank and Hertford, which sold at 55 and 56 cents per bushel, 90 days .-OATS-Are in fair stock, and only a retail demand exists .-No late sales, except in the small way from store, and we are unable to give a quotation.——PEAS—Are in good demand, and the market is very poorly supplied. A few small lots of Com have been received and taken by dealers at 80 J. Munro; with 200 hhds., 4 tierces, and 4 bbls molasses. to 85 cents per bushel, as in quantity and quality. - RICE -There is a moderate supply in first hands, and only a light demand. The price has declined a shade, and we quote

small sales at 44 a 42 cents per lb.

HAY—The market is very well supplied with both Northern and Eastern make, and there is merely a retail demand. A lot of 150 bales Eastern was received a few days since and sold on private terms. LIME-The stock in dealers hands has become somewhat

small. We quote sales from store at 90 cents to \$1 per cask for common lamp. MOLASSES-Cuba is in fair stock, and there is only a limited demand. We reduce prices a shade, and quote small tin. sales from wharf at 23 a 25 cents per gallon in hhds., as in quantity. A cargo of 200 hhds , 4 tierces and 4 bbls. have B. G. Worth. been received from Havana, and is selling at above prices. POTATOES-Irish are in good stock and dull of sale at \$1 Peirce. 75 to \$2 per bbl. Sweet are brought to market rather slowly, and sell at 55 to 60 cents per bushel.

PEA NUTS-During the early part of the week there was considerable enquiry for shapping purpo es, and prices ad- Yabrough & Poke. vanced a shade; for the past two days, however, the market has ruled rather dull; and at the close there are but few buyers, unless at lower figures. We quote sales for the week from carts and wagons of about 2,000 bushels at \$1 05, \$1 10, \$1 25, \$1 32 to \$1 45 per bushel—the latter price for

Provisions .- No receipts of N. C. cured Bacon for some time, and the market is bare. There is a fair enquiry, and parcels would sell on arrival at quotations in table. The stock of Western cured has also become materially reduced, owing to the meagre receipts, and prices have an advancing tendency. We quote small sales from store at 11 cents for shoulders, and 13 cents per lb. for sides-some holders, however, are asking higher figures.—LARD.—The re-ceipts of both North Carolina and Western make continue meagre, and the stock on market is very light. We quote small sales at 134 cents for the former, and 124a13 cents per Common, ... 2 25 @ 2 50 | lb. for the latter .- - PORK .- But little Northern arriving, Fresh is in brisk demand, and has been brought in from the country rather slowly during the week; meets with ready sale at 8 to 9 cents per lb., as in quality.

SALT.—No arrivals of either description since out last review, and consequently we have no transactions to report. There is a fair stock of Liverpool ground on market, and only a small business doing. Seling from store and wharf

at \$1.10 a 1.15 per sack. SHINGLES—The demand for shipment has become checked, and the market rules dull. Only a few small boat loads of Common received for the week and sold at \$2 25 to \$2 50 TIMBER-In the absence of the usual demand for mill purposes the market has ruled decidedly dull for the past week and we have not a single sale to report. We omit quota-

tions, as any figure we might offer would be nominal. EXCHANGE-on the Northern Cities continues scarce. Bank rates are 5 per cent., and brokers 6 per cent. FREIGHTS-Coastwise have dec ined a shade, and the market rules dull. Plenty of vessels in port, and but little produce offering shipment. See table for last prices paid.

BALTIMORE, Dec. 18 .- Flour is dull, and market de pressed; Howard st. and Ohio superfine is held at \$4 75.— Wheat, red \$1 05 a \$1 15, white \$1 10 a \$1 35. Corn is Pork \$17. Lard is quiet. Whisky is dull at 174 a 18c. CHARLESTON, Dec. 10 .- Cotton .- There was a good demand to-day at firm and full prices. We quote Middling at NEW YORK, Dec. 10 .- Flour firm; sales of 7,500 bbls.

Sept. 13th, 1860 DEAD THE FOLLOWING, from the Report of th

Necretary of War: WAR DEPARTMENT, December 3, 1860. BREECH-LOADING ARMS. Very frequent and numerous experiments have been made under my direction of breech-loading arms, and inventions for this purpose are wonderfully numerous. Many have been rejected, but some plans for breech-loading have been

been rejected, but some plans for breech-loading have been approved, after very numerous experiments, and are now conceded by all who are familiar with them, and capable of judging, to be by far the most efficient arms ever put into the hands of intelligent men. Immediate steps ought to be taken to arm all our light troops with the most approved of these arms. I hold it to be an inhuman economy which sends a soldier into the field, where his life is constantly in danger, without furnishing him with the best, not the most approved of the sends a soldier into the field, where his life is constantly in danger, without furnishing him with the best, not the most danger, without furnishing him with the best, not the most expensive, arms that are or can be made. It is no answer to say that our troops cannot be taught to use with skill this character of arm, as well as another. It is the practice and was a decline on all qualities, and sales were made at \$1 60 drill that make the soldier expert in the use of his arms, for yellow dip, \$1 25 for virgin, and 80 cents for new hard, and whilst he may attain to great skill with a good weapon, he certainly never can do so with an indifferent one.

I think it may be fairly asserted, now, that the highest efficiency of a body of men with firearms can only be secured by putting in their hands the best breech-loading arm. The long habit of using muzzle-loading arms will resist what seems to be so great an innovation, and ignorance may condemn; but as certainly as the percussion cap has superseded the flint and steel, so surely will the breech-loading gun drive out of use those that load at the muzzle. For cavalry tne revolver and breech-loader will supersede the sabre. JOHN B. FLOYD, Secretary of War. TO THE PRESIDENT.
